

## PRESENTING THE NEXT GEN i10

A world of perfection awaits you – The world of the Next Gen i10. From the cutting edge VVT technology behind the engine to the fluid form of its sleek design and stylish interiors, the i10 is clearly more than just a car. It's a testament to perfection. The aggressive, modern & sleek exteriors, 2-tone beige and light brown interiors with blue illumination and chrome accents at multiple locations give the Next Gen i10 a premium feel and make it a car like no other.

### Folding Key with Keyless Entry and Burglar Alarm

A careful design ethos can be found even in the ignition key console which has a convenient folding bayonet, a first-in-class feature that adds oomph to the Next Gen i10. Remote locking / unlocking facility with a burglar alarm provides protection against any unauthorized entry.

## SAFETY COMES NATURALLY WITH THE NEXT GEN i10

### ABS

The Anti-lock Braking System with its amazing ability to prevent skidding and retaining the car's steerability adds another feather in the cap of the Next Gen i10. It also prevents wheel lock-up during panic braking especially on slippery surfaces and ensures stable braking.

### Reverse Parking Sensor

Another first-in-class feature that detects obstructions while reversing with the help of a proximity sensing buzzer helping the driver avoid a possible collision. This feature is very useful while parking the vehicle in tight spaces.

### Dual Airbags

The Next Gen i10 offers dual airbags which deploy in the event of an accident to reduce the severity of injury to the occupants and ensure maximum safety and confidence in vehicle.

Apart from being the best-looking car on roads, the next gen i10 is also one of the safest. With first-in-class reverse parking sensors and the reassurance of dual airbags and ABS, you don't have to worry about safety anymore while you enjoy your Next Gen drive.

Outside Mirror Turn Indicators

Electric Heated and Adjustable Outside Mirror

Electric Sunroof

Automatic Transmission

Bluetooth Connectivity

Steering Audio and Bluetooth Control

Aux and USB Ports

Driver Seat Height Adjuster

The Next Gen i10 is simply irresistible and speaks volumes about class and innovation from every angle. The first-in-class turn indicators on the outside mirrors with heated function, the electric adjustable mirrors and electric sunroof lend a touch of luxury to this Next Gen phenomenon. While the automatic transmission ensures a hassle free drive, the bluetooth connectivity, steering wheel remote, USB port and driver seat height adjuster make the drive convenient, providing ultimate driving pleasure.

### Innovation in Style and Technology

The eye-soothing and elegant blue interior illumination make the instruments easy and strain less to read. The stunning design makes the cluster look really interesting.

### 1.2 litre Kappa2 Engine with VVT

The 16V DOHC Kappa2 engine with first-in-class VVT (Variable Timing Valve Train) technology gives you the best of both worlds – class leading mileage and optimum performance for an out-of-the-world driving experience. The VVT system controls the valve operation depending upon the engine requirement leading to the best-in-segment fuel mileage with low emissions.

### 1.1 litre iRDE2 Engine

To ensure an irresistible combination of power and mileage, the 1.1 iRDE2 (intelligent Responsive Drive Engine) has been technically enhanced and upgraded to deliver a peak power of 69 ps.

Hyundai introduces an eco-efficient 'blue drive' technology in the Next-Gen i10 with 1.1 Era and 1.1 Magna LPG variants.

i10 'blue drive' promises both performance and low running costs with easy petrol to LPG shift. Separate fuel tanks for LPG and petrol ensure high fuel efficiency in both cases, thus reinforcing Hyundai's commitment to the people and the planet.

### LPG Benefits:

- Lower running cost than petrol
- 2-year unlimited warranty gives peace of mind
- Dual fuel advantage of petrol and LPG
- Longer drive range with an additional 34 litre LPG tank
- Company fitted kit ensures quality
- Specially designed tank for uncompromised boot space

### Auto LPG

LPG is a clean burning, high octane, eco friendly fuel. It has lower emission levels & reduces engine wear and tear.

- Environment friendly
- Enhanced engine life

LPG fuel gauge

### The Toroidal LPG Tank

The company fitted Toroidal LPG tank is specially designed and is smartly located so that it does not use up much of the useful boot space.

Tank capacity (water filling) – 34 litres

### AMS (Alternator Management System)

AMS is yet another innovative technology from Hyundai, which controls delivery of power to the battery. While decelerating, the power supply to the battery is normal and during acceleration it limits the same.

- Extended battery life
- Improved mileage

### Gear Shift Indicator

The first-in-class manual transmission shift indicator helps to decide optimum gear usage.

- Improved mileage
- Enhanced driving performance

Gear Shift Indicator
